SUMMARY

Backend Developer at L5 Network, also working on the front-end. I work with Node.js, Express, MySQL, Redis and Docker on the back-end and Angular on the front-end; in my own projects I use TypeScript end to end with Next.js, NestJS and Python/Flask. Associate degree in Systems Analysis and Development from Faculdade Impacta (2026).

EXPERIENCE

Backend Developer · L5 Network 2025 — present

I work mainly on the back-end, building APIs with Node.js and Express on top of MySQL, caching with Redis and running environments in Docker. I also work on the front-end with Angular.

- REST APIs with Node.js and Express
- MySQL modeling and queries, with Redis caching
- Development and deployment environments with Docker
- Front-end screens and integrations with Angular
